## **COVID-19 Statement**

Dear Customers,

With the recent announcement by the provincial governments in Ontario and Quebec, we wanted to reach out to our customers to advise how M&R Feeds is responding.

M&R Feeds plays a critical role in supporting the agriculture and agri-food business and supply chain in Canada. We know that our customers depend on us to safely and reliably provide the products they need to get the most from their farm operations. We are pleased to inform you that both Ontario and Quebec provincial governments have identified us as an essential service which enables us to continue to manufacture and deliver products to our customers in a safe and timely manner.

Like you, we'll continue to monitor the situation closely. To date, there have been no shortages or supply interruptions to our operations as it relates to COVID-19. However, we know that planning ahead and remaining proactive will be the key drivers of success - for us and for you. That's why we are continuously evaluating the likely consequences to our business depending on the severity, spread and duration of the outbreak, and commit to communicating with you with openness and transparency every step of the way.

As always, the health and safety of our staff and their families, as well as our customers and the communities we all call home is our top priority. Above all else, we're here for you and we're in this together.

If you have any questions, do not hesitate to reach out to your local M&R Feeds store or representative.

Sincerely,

The owners & staff of  
M&R Feeds – Micksburg, Pembroke & Shawville
