Extended Terms Financing: One Stop For Crop

M&R Feeds and Farm Supply (Micksburg-Pembroke-Shawville) has teamed up with Farm Credit Canada to make available a revolving credit line with extended terms of repayment. This program is for crop inputs exclusively purchased from M&R Feeds and Farm Supply (Micksburg-Pembroke-Shawville) and is available to producers in Ontario and Quebec.

The main features of this program are:

Purpose of Loan

- All crop inputs purchased from M&R Feeds and Farm Supply (Micksburg-Pembroke-Shawville) can be financed including seed, fertilizer, pesticides/herbicides and agronomic services.

Payment Terms

- Purchases for crop inputs planted and harvested are not due to be paid until March 31 of the following year (crop inputs for 2020 crop are due March 31, 2021).
- The loans are fully open and may be repaid and re-used during the program year without notice or penalty.
- The loan program allows you to take advantage of early order and early pay discounts that give more savings than “interest free” programs.

Interest Rate

- Loans will bear a “variable rate” of interest equal to the prime rate plus 2.95%, calculated daily, not in advance, and compounded quarterly.

Loan Amount

- Minimum loan amount if \$5,000.00; maximum is considered on an individual basis.

Annual Re-approval

- Loans under \$250,000 remain in place from year to year without the need to reapply providing that payment are made as agreed on all FCC loans and there is no material change in the customer’s credit bureau score.

We can assist you in filling out the application. M&R Feeds and Farm Supply (Micksburg-Pembroke-Shawville) submits the application and a quick (2 day) return is expected. The sooner the forms are submitted, the sooner you can rest assured knowing your crop input financing will be set up for the 2021 season and beyond. We look forward to having you make us your one stop for crop.

Sincerely,

Brent Clifford and the M&R Team
